## NEW ROAD AND MULTI-USE TRAIL TO OPEN THIS THURSDAY IN SANTA CLAUS

(Santa Claus, IN, September 11, 2018)

Culminating years of planning and months of construction, the Town of Santa Claus will open the newest road and trail with a ribbon cutting ceremony this Thursday afternoon (September 13, 2018) at 4:30PM (CDT) at the north end of the road at Indiana 245 and the firehouse.

At a cost of \$1.5 million, the road provides an alternate traffic pattern for visitors and residents, better access to IN 162 from the Fire Department and an extension of the trail system in the town. It additionally offers economic development opportunity of over 30 acres of commercial/retail land.

It is anticipated that the name of the new street will be confirmed at a council meeting following the event.

The road project will be fully completed in December of this year but be open to the public after the ceremony.

All interested parties are welcome to attend.
