

Driveway Permitting and installation  
For the  
Town of Santa Claus

Refer to sections 3.01 and 4.02 of the Access Management Ordinance for general information related to drive-way permitting and installation in the Town of Santa Claus.

When either an Improvement Location Permit (ILP), or building permit are applied for, a drive-way permit is simultaneously triggered.

Prior to the placement, or modification of a driveway, you must contact the Utility Department at 812.544.3329.

Thank you,

Russ Luthy

Superintendent
